

NLS Go Kart – Grand Prix

On Friday 11<sup>th</sup> March members and friends of Nottinghamshire Law Society met at [Teamsport Nottingham](#) to test their driving skills on a 750m go kart track.

The 200cc petrol go karts of a maximum speed of 40mph were put under pressure with a fifteen minute qualifying round. Once qualified the drivers, were placed in grid position for the final race.

Lights out and they were off...

All drivers displayed some competitive driving skills and after fifteen minutes of laps, which should on average take around 38 seconds, the chequered flag was waved and the race concluded.

All the drivers made it passed the finishing line in one piece and then to hear the winning times.

First and second positions went to friends of Nottinghamshire Law Society, Daniel Burks and Samuel Taylor with Harvey Pabla from QualitySolicitors Yates and Co in third position.

After the race, everyone enjoyed pizza and light refreshments whilst exchanging stories of how certain bends were being taken, who had overtaken who and best way to get an advantage on the track!

It was a great experience and one we would recommend to everyone.
